

FOOD & NUTRITION SCIENCE ACADEMIC MAP (Effective Summer 2017 and after)

This map is a term-by-term sample course schedule. The milestones listed to the right of each term are designed to keep you on course to graduate in four years. The Sample Schedule serves as a general guideline to help you build a full schedule each term. The Liberal Studies and Elective courses must be selected to satisfy all state and university-wide requirements unless your program meets these requirements with major courses. Please visit <http://liberalstudies.fsu.edu> to learn more about these requirements. Milestones are courses and special requirements necessary for timely progress to complete a major. Missing milestones will result in one of two types of map registration stops. The first level (***Degree Map Off Track***) is placed following grade posting if the student has missed a milestone (course and /or GPA) for the first time in the major. If a student in non-compliance with milestones for two (2) consecutive semesters (excluding summers) a ***Major Change Required*** stop is placed in the student's registration.

The undergraduate student majoring in Food and Nutrition Science is usually preparing for an advanced degree with specialization in Food Science or Nutrition and a career in university teaching and/or research, medicine, the good industry, or government. With proper advising, this program can also serve as a pre-medical curriculum.
